5. The only interest of the State in the project is in the acquisition of federal funds for the use and benefit of the City by reason of federal law and regulations under which funds for the project are authorized to be expended.

6. The City, in order to obtain federal funds for the construction of the project, is willing to provide the State with the City funds to match federal funds in the ratio required or as finally fixed and determined by FHWA.

Total City of Show Low Funds	\$ 43,117.00*

* This includes a two percent surcharge per Local Government Engineer memo of 4 April 1994.

THEREFORE, in consideration of the mutual covenants expressed herein, it is agreed as follows:

II. SCOPE OF WORK

1. The State shall submit a program containing the aforementioned project to FHWA with the recommendation that it be approved for construction.

a. If such project is approved for construction by FHWA and the funds are available for construction of the project, the State with the aid and consent of FHWA will proceed to advertise for, receive and open bids, and subject to the concurrence of FHWA and the City, award the contract, enter into a contract with a firm to whom the award is made for the construction of the project, such project to be performed, completed, accepted and paid for in accordance with the requirements of the Standard Specifications for Road and Bridge Construction of the Highways Division, Arizona Department of Transportation. Further, the State will enter into a Project Agreement with FHWA covering the work embraced in said contract or in this agreement and will request the maximum federal funds available.

b. The State will furnish City with a copy of the proposed Project Agreement to be entered into by the State and FHWA. Upon approval of the terms and conditions of the Project Agreement, the agreement shall be incorporated in and made a part of this agreement by reference and shall have the same force and effect as though fully written herein.

c. Should some unforeseen conditions or circumstances increase the cost of said work required by a change in the extent or scope of the work called for in this agreement, the State shall not be obligated to incur any expenditure in excess of the amount of City's deposit unless and until so authorized in writing by the City.

2. Prior to the solicitation of bids, the City shall deposit with State funds in the amount determined by the State to be necessary to match federal funds in the ratio required.

Upon completion of the construction contract, the State shall return to the City any part of the funds deposited by City remaining after City's pro rata share of the cost, as finally fixed and determined by FHWA, has been paid.

3. The City shall acquire, without cost to the State, the necessary right-of-way and hereby certifies that all necessary rights-of-way have been acquired.

4. The City shall remove from the proposed right-of-way all obstructions or unauthorized encroachments of whatever nature, either above or below the surface of the roadway, and hereby certifies that all obstructions and encroachments have been removed therefrom.

5. The City shall not permit or allow any encroachments, except those authorized by permit, upon, or private use of, the right of way. In the event of any unauthorized encroachment or improper use, the City shall take all necessary steps to remove or prevent any such encroachment or use; failing in which the State shall have the right to proceed with the removal or prevention thereof, the cost of such removal or prevention to be borne by the City.

6. Upon completion of construction, the City shall provide for, at its own cost and as an annual item in its budget, proper maintenance, including, but not limited to, traffic signals, signs, islands, curbs and markings necessary for the purpose of regulating, warning and guiding traffic.

7. The City shall mark and sign school crossings and railway-highway grade crossings in accordance with the requirements of the current edition of the Manual on Uniform Traffic Control Devices for Streets and Highways.

8. By such regulation as it may by ordinance provide, the City shall regulate parking and not permit vehicles to be left on the street in any manner other than at and parallel with the curb and to restrict parking so as to prevent conflicts with moving traffic at intersections and at such other locations as necessary.

III. MISCELLANEOUS PROVISIONS

1. The State assumes no financial obligation or liability under this agreement. The City assumes full responsibility for the design, plans, specifications, reports, the engineering in connection therewith and the construction of the improvements contemplated, cost over-runs and construction claims. It is understood and agreed that the State's participation is confined solely to securing federal aid; that any damages arising from carrying out, in any respect, the terms of this agreement or any modification thereof, shall be solely the liability of the City and that the City hereby agrees to save and hold harmless and indemnify from loss the State, any of its departments, agencies, officers or employees from any and all cost and/or damage incurred by any of the above and from any other damage to any person or property whatsoever, which is caused by any activity, condition, or event arising out of the performance or nonperformance of any provisions of this agreement by the State, any of its departments, agencies, officers and employees, the City, any of its agents, officers and employees, or any of its independent contractors. Costs incurred by the State, any of its departments, agencies, officers or employees shall include in the event of any action, court costs, expenses of litigation and attorneys' fees.

2. The cost of the design, construction and construction engineering work covered by this agreement is to be borne by FHWA and the City, each in the proportion prescribed or as fixed and determined by FHWA as stipulated in this agreement. Therefore, the City agrees to furnish and provide State with City funds in an amount equal to the difference between the total cost of the work provided for in this agreement and the amount of federal aid received.

3. This agreement shall become effective upon filing with the Secretary of State.

4. This agreement shall remain in force and effect until completion of the work herein embraced; provided, however, that any provisions in this agreement for maintenance shall be perpetual.

5. This agreement shall be cancelled in accordance with Arizona Revised Statutes Section 38-511.

6. The provisions of Arizona Revised Statutes Section 35-214 are applicable to this agreement.
